Saturday, June 18, 2005

Concurrent Session H: 11:00 am - 12:15 pm

51. Building a Values-Based Community Public/Academic Library System for the 21st Century

Speakers: *Colleen Jensen, Community Services Director, City of Red Deer, AB; Dr. Torben Andersen, Dean, Humanities & Social Sciences, Red Deer College, AB*

The Millennium inspired a new level of library service in Red Deer, introducing an integrated, innovative library system that removes traditional institutional and social barriers. Based on the values of The Alberta Library, the system delivers the resources of two vibrant libraries - Red Deer College Library & Red Deer Public Library - to every citizen in the community. The Library Council, with members from the City of Red Deer, Red Deer College and the Red Deer Public Library Board, plans and guides this dynamic partnership. The outcomes: new facilities and major renovations, high public profile, increased government support and record customer usage.

This session will be of interest to: Broad appeal to all including librarians, trustees and advocates

Streams: Advocacy and Public Relations
